EDUCATION

University of California, Irvine

August 2018 – June 2022

Bachelor of Arts, Business Economics

EXPERIENCE:

Green Market Ventures

June 2022

Front-end Developer Intern

- Created web pages using React/Node.
- Built and developed new user facing experiences that are fully responsive and performant.
- Assist in implementing frontend designs for various features.
- Partner closely with cross functional teams in design, product and other business units.
- Participate in Quality Assurance and website testing.

RELEVANT PROJECTS:

BullBear | [Link to BullBear](#) | [Github](#)

June 2022

- Developed a React web app that consumes REST API data about all stocks in the S&P 500 index from Alpha Vantage API.
- Accomplished feature to allow users to search for stock ticker symbols by incorporating React hooks.
 - Users can add the search stock to their watch list.

KVL Communications | [Link to Favorite Classes](#) | [Github](#)

- Freelance work for a client and his telecommunications business.
- Implemented Stripe's custom checkout pages using Stripe's API.

MOBILE APP PROJECTS:

CodePath org: Android University: UC Irvine

January 2022 - March 2022

Instapic | *Team of 1* [Github](#)

- Developed an Android photo sharing app that is similar to Instagram, and integrated Back4App as its backend.
- Enabled users to be able to create a new account using Parse Authentication and log in.
- Users can log in and out, and can switch between different navigation tabs.
- Implemented the use of the phone's camera to be able to compose new posts to the timeline with a caption.

Technologies used: Kotlin, HTTP requests, Glide library, Back4App.

SKILLS

Javascript,

React,

Next JS

Git,

REST API,

HTML,

CSS/SCSS,

Tailwind CSS

Node.js

CERTIFICATIONS:

- CodePath Org: Android Mobile Development

Received March 2022

EXTRACURRICULAR:

- UC Irvine Baseball team (2018–2020), CodePath Org., Kababayan (Filipino) Club
